Codebasics Brand Style Guide

Version 2.0 | Living Document

🎯 Quick Reference

Brand Essence

Mission: Help learners attain their highest potential through effective teaching, job-ready content & engaging learning experience at an affordable price.

Vision: To be the most loved learning platform on Planet Earth

Promise: Accessible, practical learning designed to simplify complex topics.

Positioning: For humble aspirants who value clarity over hype, Codebasics offers simple, project-based learning that builds confidence, real skills, and a competitive edge with guidance of industry experts trusted for their teaching.

👥 Who We Are

Founders

- **Dhaval Patel** (Founder): Created Codebasics YouTube channel in 2016 during a health struggle. Left Bloomberg, New York to pursue teaching full-time.
- **Hemanand Vadivel** (Co-Founder): Joined in 2021 as a data analytics expert from Europe, contributing as "payback" for his learning journey.

Platform Stats

- 1.4+ million YouTube subscribers
- 60,000+ registered course buyers
- Focus areas: Data Science, AI, Data Analytics, Data Engineering

---

🎭 Brand Archetype: The Sage

Codebasics embodies the **Sage** archetype — positioning as a reliable source of knowledge that focuses on education, clarity, and insight rather than hype or gimmicks.

Similar brands: Google, McKinsey, National Geographic, Philips

---

🗣️ Tone of Voice

Core Principles

1. **Clear** — Explains complex ideas in simple language so learners never feel lost
2. **Trustworthy** — Shares knowledge without gimmicks, ensuring honest, reliable guidance
3. **Practical** — Focuses on real-world, actionable insights learners can apply to careers
4. **Supportive** — Encourages like a mentor — approachable, never intimidating

Voice Traits in Content

- **Learner-focused:** Value over campaign promotion
- **Approachable Mentor:** Expert but welcoming, never distant or intimidating
- **Simple:** Relatable and easy to understand

👨‍🎓 Target Audience

Demographics

- **Age:** 18-60 years
- **Profile types:**
  - Students
  - Professionals looking to upskill
  - Career transitioners from non-IT fields
  - 35+ professionals seeking technical skills

Geographic Pricing Model

- **High Economic Regions:** Higher pricing tier
- **Low Economic Regions:** Lower pricing for accessibility
- Core audience in India with growing global community

✍️ Writing & Terminology

Brand Name Representation

✅ **Correct:** Codebasics
❌ **Incorrect:** CodeBasics, codebasics, CODEBASICS, Code Basics, Code Basic, Codebasic

Essential Vocabulary

Don't Use	Do Use	Reason
User	Learner	Creates community belonging
Discount	Subsidy	Value-oriented, not sales-oriented
Sale	Added Benefit	Keeps focus on learner value
Offer	Gift	Maintains brand integrity

Key Terms

- Always refer to people as "Dear [Name]" or "Dear Learner"
- Never use "user" — always "learner"

📱 Content Guidelines by Platform

Social Media Posts

Aspect Ratios:

- Instagram: 4:5 (1080 x 1440) or 1:1 (1080 x 1080)
- LinkedIn: 4:5 or 1:1
- YouTube Community: 1:1 (1200 x 1200)

Design Elements:

- Use Primary Colors for backgrounds/main elements
- Lime Yellow (#D7EF3F) for highlighting keywords
- White (#FFFFFF) for remaining text
- Fonts: Saira or Saira Condensed (headings), Kanit (body)

Content Style:

- Focus on value, not promotion
- Use simple, relatable language
- Avoid excessive emojis (use thoughtfully: ✨ 🎯 📊 💡 🚀 ⚡ 🔥)
- Use 2-3 relevant hashtags maximum
- Avoid automated comments (max 1-2 posts/week)

Stories

Design:

- 9:16 ratio (vertical)
- Use Primary Colors for backgrounds
- White or Instagram default light blue for text
- Fonts: Saira/Kanit (Canva) or Directional/Squeeze/Modern/Classic (Instagram native)

Highlights:

- Add testimonials & job success to "Success Stories"
- Create event-specific highlights during events
- Post-event: replace with pictures from events

Videos

Quality Standards:

- Normal videos: 4K 24/25/30 FPS
- Slow-motion: 4K 60 FPS
- Social reels: 9:16 (vertical)
- Events: Mix of 16:9 (horizontal) & 9:16 (vertical)
- Paid ads: 40+ sec = 16:9, under 40 sec = 9:16

Text & Colors:

- Keywords: Saira Condensed
- Captions: Saira Condensed/Kanit
- Use Primary Colors for backgrounds
- Use Secondary Colors for highlights

Music:

- Use instrumental, upbeat/motivational music
- Avoid trendy music with misaligned lyrics
- Focus on beats with young energy

Thumbnails

Design Principles:

- Create in 9:16 (vertical) for LinkedIn/Instagram
- Highlight keywords in Lime Yellow, rest in white
- Interesting hook from first frame
- Foreground: clear faces of people/team
- Complementary glow effect behind foreground
- Key content fits in 1:1 or 4:5 within 9:16 frame
- Background: color overlay from Primary Colors with gradient/reduced opacity

Emails

Structure:

- Include Codebasics logo in header
- Use "Dear [Name]" or "Dear Learner"
- Never call someone a "user"
- Include image in first half to draw attention
- Use bullet points for key benefits
- Clearly mention pricing, dates, times
- Clear Call-to-Action button
- End with social icons or "Regards, Team Codebasics"

WhatsApp

Format:

- Always use an image
- Start with "Dear [Name]" or "Dear Learner"
- Short, clear opening message
- 3-4 bullet points with key benefits

- Always include CTA: "Check it out!", "Know More!"
- Provide free resources via WhatsApp Community
- Redirect to website

Website

Core Principles:

- Simple, clean UI/UX — minimal but functional
- Reflect course quality in design

Yellow Strip Updates: Format: [Notification text | Main line | CTA] Examples:

- "What's New? Gen AI & Data Science Bootcamp is now LIVE! Check it out!"
- "Update Alert: Data Analytics Bootcamp 4.0 has undergone a major upgrade to 5.0! Know Features!"

Launch Requirements:

- Notify existing users about upgrades in dashboard
- Create 2-3 landing pages at least 1 week before campaign
- Provide Thank You pages 2-3 days before campaign
- Update 1st slider image for launches

Launch Assets:

1. Bootcamp thumbnail (no pricing)
2. Slider image (no pricing, CTA in design)
3. Roadmap
4. Brochure

🚫 Content Restrictions

What to Avoid

- Pictures/videos of learners without consent
- Liking your own posts
- Forcing engagement (use organic redirects to website)
- Excessive automated comments (max 1-2 posts/week)

- Random or excessive hashtags
- Overly cartoony emojis
- Trendy music with misaligned lyrics
- Content dividing into many parts without bullet points

Festival Content Guidelines

Don't:

- Promote specific gods, deities, or prayers
- Give hints favoring one religion/community
- Over-commercialize with hard-selling
- Use heavy religious imagery
- Example: Showing Ravan's end for Diwali

Do:

- Celebrate universal values: joy, light, unity, growth
- Keep messaging inclusive
- Share festive wishes, polls, learning analogies
- Maintain modern, simple, professional visuals
- Example: Focus on light and community positivity for Diwali

---

🎨 Brand Colors

Primary Colors

- **Blue:** #3B82F6 (RGB: 59, 130, 246) — Main brand color

- **Website:** Manrope
- **Emails:** Kanit, Saira, or Arial

🎭 Brand Characters

Peter Pandey

The main character representing the learner's journey. A humble learner navigating data and AI world — designed to mirror the learner's experience.

Tony Sharma

A helpful senior who guides Peter through the professional world with better, more efficient ways to get things

done.

Bruce Haryali

The stakeholder who identifies business problems and needs Peter and Tony's help to dig deeper into insights for business decisions.

📞 Phone Communication

Dos

- Greet warmly, introduce yourself, state purpose clearly
- Actively listen, let learners finish, acknowledge challenges
- Speak clearly, avoid jargon, confirm understanding
- Use positive, encouraging, polite words
- Set realistic expectations, follow through
- Follow structure: Greeting → Understand Need → Support → Closure
- Summarize key points, provide next steps, thank learner
- Keep learner data private, handle sensitively

Don'ts

- Sound rushed, monotone, or disinterested
- Interrupt or argue with learner
- Confuse with over-explaining or technical terms
- Use negative phrases like "I don't know" without solutions
- Overpromise or ignore escalations
- Read scripts robotically
- End abruptly without confirming satisfaction
- Share unnecessary personal/internal information

🎪 Events

Online Events (Webinars)

- Greet audience, ask how they are

- Introduce speakers with name and designation
- Set clear agenda before starting
- Use Codebasics deck background with "Confidential" watermark
- Use Slido for engagement/quizzes
- Announce winners, allow Q&A at end
- Keep promotions subtle, not salesy

Offline Events

Sustainability Focus:

- Avoid plastic water bottles, plates
- Choose paper or sustainable materials
- Minimize pamphlets/brochures (use booklets or QR codes)

Interaction Guidelines:

- Be confident
- Position Codebasics as most loved educational platform
- Share business cards with potential collaborators sharing similar values

Asset Requirements:

Small Scale Events:

- 1-2 social media posts
- 1-2 registration desk designs
- 1-2 standees
- 1 photo booth
- 1 brochure
- 1 merchandise set
- 1 post-event creative

Mid Scale Events:

- 1 event logo
- 1 social media post set
- 1 entrance arch

- 1 registration desk
- 2-3 welcome kits
- 1-2 Codebasics booth
- 1-2 IDC booth (if co-sponsor)
- 1-2 sponsor booths
- 2-4 Codebasics standees
- 3-5 IDC standees
- 1 photo booth variation
- 4-6 color photo booths
- 4-6 AV videos
- 1-2 interactive zones
- 1 ID card design
- 1 brochure
- 1 wristband design (each type)
- 1 merchandise set
- 2-3 team outfits
- 1-2 post-event creatives

Large Scale Events:

- Same as mid-scale with increased quantities
- Add: 1 podcast backdrop

🏢 Co-Branding

Indian Data Club (IDC)

A growing club for AI and emerging tech exploration across major Indian cities. Brings together diverse people for challenges, workshops, hackathons, and networking.

Colors:

- Lime: #B8EF72
- Dark Navy: #2D323E
- Darker: #1B1E28

- White: #FFFFFF

Typeface: Kanit

Codebasics Foundation

Non-profit supporting passionate communities and individuals with limited resources through education, skills, and personal development.

Co-Branding Rules

- Color scheme follows main sponsor
- If Codebasics is sponsor and IDC is partner → use Codebasics palette
- If IDC is sponsor and Codebasics is partner → use IDC palette

---

🚀 Core Brand Values

What Makes Us Different

- **No gimmicks:** No fake discounts, no FOMO tactics
- **Value-oriented:** Never slash prices or create artificial urgency
- **Learner-first:** Every decision centers on learner benefit
- **Simplicity:** Complex topics made understandable
- **Project-based:** Real industry use cases and hands-on learning
- **Job-ready focus:** Built by industry experts for career success

Our Commitment

We aspire to become the most loved learning platform in data and AI by staying true to our mission of simplifying complex topics and making learners job-ready through practical, affordable education.

For logo files, brand assets, and detailed specifications, refer to the full brand guidelines document or contact the brand team.
